"About Teaching Mathematics is the most important resource in my teaching library; I've been using it for more than twenty-five years. This fourth edition will especially help teachers and administrators wrap their brains around the Common Core content and practice standards. It provides educators with a host of rich math tasks and includes clear and relatable reflections about math teaching and learning." "About Teaching Mathematics is an ideal guide for new teachers, but also includes lessons and activities that will enhance the repertoire of the most veteran teacher." Jenny Wickett, first-grade teacher, Pajaro Valley Unified School District, Watsonville, California. "In 1985 I attended my first About Teaching Mathematics course. Mathematics Teaching Resources. 17,503 likes · 62 talking about this. Resources for educators shared by educators. 43000 links and growing. Together! This page highlights Mathematics resources that have been shared on Cube For Teachers. Cube For Teachers is a global community of educators sharing links to resources that matter to them. Join the movement and access thousands of resources. It's FREE! <http://www.cubeforteachers.com/>. Part 3, Teaching Arithmetic, focuses on the cornerstone of elementary mathematics curriculum, offering ideas and assessments that build students understanding, confidence, and competence in arithmetic. In Part 4, Questions Teachers Ask, features Marilyn's responses to pedagogical questions she's received from teachers over the years. More than forty reproducibles for About Teaching Mathematics are available to download in a printable format." In this fourth edition of her signature resource, Marilyn presents her current thinking and insights and includes ideas from her most recent teachin...

Common Core mathematics is a way to approach teaching so that students develop a mathematical mindset and see math in the world around them. We are making problem-solvers. No matter what your objectives, textbook, or grade level, the eight mathematical practice standards are a guide to good math instruction. Here they are in plain English with suggestions for incorporating them into your everyday math class.

#1 Make sense of problems and persevere in solving them. Useful resources: The Georgia Department of Education has created critical-thinking math tasks for every standard. The New York City Department of Education has a set of aligned tasks as well.

#2 Reason abstractly and quantitatively. Marilyn Burns's signature resource continues to be at the forefront of current trends and practices for improving the teaching and learning of mathematics. Supporting a student-centered, problem-solving approach proven by research to best develop students' thinking and reasoning of mathematics, Marilyn presents invaluable insights in a standards-driven, practical, and accessible manner. This essential resource includes more than 240 classroom-tested activities and presents the content and pedagogy teachers need to understand the math they are responsible for teaching, use effective teaching strategies (1992). *About Teaching Mathematics: A K-8 Resource*.
