Planet Earth 2000 A.D. book. Read 5 reviews from the world's largest community for readers. An exciting, updated report on the dangers facing the world a...Â Goodreads helps you keep track of books you want to read. Start by marking "Planet Earth 2000 A.D.: Will Mankind Survive?" as Want to Read: Want to Read savingâ€| Want to Read. Advertisement. show ad. Wells drilled into Martian ice WOULD provide enough water for mankind to survive on the Red Planet, NASA study finds. Water is needed for drinking, growing food and even making rocket fuel. Mars has no flowing surface liquid - but does have huge sheets of ice.Â A NASA study has simulated how wells used on Earth could be used to drill into them and melt ice. How DID mars get its underground glaciers? Researchers say the ice was likely deposited as snow long ago.
