Quentin Skinner's magisterial *The Foundations of Modern Political Thought* was first published in 1978. A commemorative volume appeared almost thirty years later. My aim in this paper is less to revisit this last discussion by questioning either the importance or the impact of Skinner's book, both of which seem to me undeniable, than it is to unsettle a few of the assumptions that not only inform *The Foundations* and much of the work that it inspired, but which are all too often taken for granted.

This course, 130 Introduction to Modern Political Thought, provides an introduction to the nature of political theory through an examination of the ideas of six of the most important western political theorists of the modern period – that is since the emergence of the state system in the early seventeenth century. The aims and objectives of the course are to: – provide an introduction to the great texts of modern political theory; – examine the meaning and justification of important concepts such as sovereignty, freedom This course examines key texts in modern political thought (17th-19th century). The modern period is characterized by unprecedented political, technical and social transformations. It sees the emergence of the modern state, the Enlightenment, the French revolution and its aftermath, the rise of liberalism as well as critical perspectives on the political challenges of modernity.
