The Baby Book is unrivaled in its scope and authority, and presents a practical, contemporary approach to parenting that reflects the way we live today. Focusing on the essential needs of babies " eating, sleeping, development, health, and comfort " it addresses the questions of greatest concern to parents. Forget unrealistic childcare manuals " this is the book new parents will really need to help cope brilliantly with the first chaotic days and months. It addresses the needs of the baby and, very importantly, those of the parent during the first year of their baby's life.
