When I visited Hong Kong, a mutual friend introduced me to a cellist going through a divorce as a participant for my research which investigates music learning and identity of Chinese musicians. My research took a different path because I decided to explore how she constructed meaning through divorce, leading to her identity change. This chapter examines the politics of death space in Hong Kong. It explains the shrinkage of death time and space over the past few decades, and highlights the newest debates on the shortage of urn spaces for the interment of human cremains. In order to reduce the pressure on land resources for accommodating the dead, the government since the late 2000s has put in great efforts to promote sea burial, which requires no land space.
