

Presidential Campaigns

By Paul F. Boller Jr.

Genre : United States

Release Date : 2004-07-22

Presidential Campaigns by Paul F. Boller Jr. is United States Were presidential campaigns always as bitter as they have been in recent years? Or is the current style of campaigning a new political development? In this revised and updated edition of Presidential Campaigns the answers to these questions are clear: the race for the presidency, although at times mean and nasty, has always been an endlessly entertaining and highly-charged spectacle for the American public. This book unveils the whole history of American presidential elections, from the seamless ascent of General George Washington to the bitterly contested election of George W. Bush, bringing these boisterous contests to life in all their richness and complexity. In the old days, Boller shows, campaigns were much rowdier than they are today. Back in the nineteenth century, the invective at election time was exuberant and the mudslinging unrestrained; a candidate might be called everything from a carbuncle-faced old drunkard to a howling atheist. But there was plenty of fun and games, too, with songs and slogans, speeches and parades, all livening up the scene in order to get people to the polls. Presidential Campaigns takes note of the serious side of elections even as it documents the frenzy, frolic and the sleaze. Each chapter contains a brief essay describing an election and presenting "campaign highlights" that bring to life the quadrennial confrontation in all its shame and glory. With a postscript analyzing the major changes in the ways Americans have chosen their Presidents from Washington's time to the present, Presidential Campaigns gives the reader a full picture of this somewhat flawed procedure. For all of its shortcomings, though, this "great American shindig" is an essential part of the American democratic system and, for better or for worse, tells us much about ourselves. **Top Books, Featured Books, Top Textbooks, Top Free Books, Top Audiobooks, Audiobooks, Arts and Entertainment Books, Biographies and Memoir Books, Business and Finance Books, Children and Teens Books, Comics and Graphic Novels Books, Computers and Internet Books, Cookbooks Food and Wine Books, Fiction and Literature Books, Health, Mind and Body Books, History Books, Humor Books, Lifestyle and Home Books, Mysteries and Thrillers Books, Nonfiction Books, Parenting Books, Politics and Current Events Books, Professional and Technical Books, Reference Books, Religion and Spirituality Books, Romance Books, Sci-Fi and Fantasy Books, Science and Nature Books, Sports and Outdoors Books, Travel and Adventure Books**

[Gettysburg](#)

By : **John Garnett**

Gettysburg, A Complete Historical Narrative of the Battle of Gettysburg, and the Campaign Preceding It , is a history of Gettysburg written by a Confederate Artillery Colonel.

[The Native Son](#)

By : **Inez Haynes Gillmore**

The only drawback to writing about California is that scenery and climate—and weather even—will creep in. Inevitably anything you produce sounds like a cross between a railroad folder and a circus

program. You can't discuss the people without describing their background; for they reflect it perfectly; or their climate, because it has helped to make them the superb beings they are. A tendency manifests itself in you to revel in superlatives and to wallow in italics. You find yourself comparing adjectives that cannot be compared—unique for instance.

[Come Fly with Us](#)

By : **Melvin Croft**

Come Fly with Us is the story of an elite group of space travelers who flew as members of many space shuttle crews from pre-Challenger days to Columbia in 2003. Not part of the regular NASA astronaut corps, these professionals known as “payload specialists” came from a wide variety of backgrounds and were chosen for an equally wide variety of scientific, political, and national security reasons. Melvin Croft and John Youskauskas focus on this special fraternity of spacefarers and their individual reflections on living and working in space. Relatively unknown to the public and often flying only single missions, these payload specialists give the reader an unusual perspective on the experience of human spaceflight. The authors also bring to light NASA’s struggle to integrate the wide-ranging personalities and professions of these men and women into the professional astronaut ranks. While Come Fly with Us relates the experiences of the payload specialists up to and including the Challenger tragedy, the authors also detail the later high-profile flights of a select few, including Barbara Morgan, John Glenn (who returned to space at the age of seventy-seven), and Ilan Ramon of Israel aboard Columbia on its final, fatal flight, STS-107.

[A Field Guide to Gettysburg, Second Edition Expanded Ebook](#)

By : **Carol Reardon & Tom Vossler**

This special enhanced ebook edition to the newly updated A Field Guide to Gettysburg will lead visitors to every important site across the battlefield and also give them ways to envision the action and empathize with the soldiers involved and the local people into whose lives and lands the battle intruded.. Both Carol Reardon and Tom Vossler are themselves experienced guides who understand what visitors to Gettysburg are interested in, but they also bring the unique perspectives of a scholar and a former army officer. Divided into three day-long tours, this newly improved and expanded edition offers important historical background and context for the reader while providing answers to six key questions: What happened here? Who fought here? Who commanded here? Who fell here? Who lived here? And what did the participants have to say about it later? With new stops, maps, soldier vignettes, and illustrations, the enhanced e-book edition of A Field Guide to Gettysburg adds more human stories to an already impressive work that remains the most comprehensive guide to the events and history of this pivotal battle of the Civil War.

[The Essential Wisdom of the Founding Fathers](#)

By : **Carol Kelly-Gangi**

America’s Founding Fathers were men of words as well as deeds. Keenly intelligent and deeply committed to their ideals and to the cause for American independence, they left us a legacy of addresses and documents whose profound ideas still speak with authority. The Essential Wisdom of the Founding Fathers collects more than three hundred inspiring and instructive quotations from the men who were present at our nation’s inception. Drawn from their speeches, essays, proclamations, and declarations, the thematically arranged contents reflect the subjects of greatest import to the founders as they forged our new republic. In these selections: George Washington confides that the best way to ensure peace is to be well prepared to meet one’s enemy; Alexander Hamilton warns of the dangers of limiting freedom of the press; John Adams reasons that true liberty cannot endure without the people’s knowledge of the character and conduct of their rulers. This volume includes extracts from texts published in the founders’ lifetimes in which they exchange ideas on the meaning

of justice, the evils of slavery, the role of the patriot, and the pitfalls of politics. Here, too, are candid excerpts from correspondence in which they express fears about the perilous times they face, and their hopes for a brighter future. Read the thoughts and beliefs of the Founding Fathers in their own words, and rediscover the ideals, heroism, and greatness that have been a part of America from the very beginning.

Homegrown Terror

By : **Eric D. Lehman**

On September 6, 1781, Connecticut native Benedict Arnold and a force of 1,700 British soldiers and loyalists took Fort Griswold and burnt New London to the ground. The brutality of the invasion galvanized the new nation, and “Remember New London!” would become a rallying cry for troops under General Lafayette. In Homegrown Terror, Eric D. Lehman chronicles the events leading up to the attack and highlights this key transformation in Arnold—the point where he went from betraying his comrades to massacring his neighbors and destroying their homes. This defining incident forever marked him as a symbol of evil, turning an antiheroic story about weakness of character and missed opportunity into one about the nature of treachery itself. Homegrown Terror draws upon a variety of perspectives, from the traitor himself to his former comrades like Jonathan Trumbull and Silas Deane, to the murdered Colonel Ledyard. Rethinking Benedict Arnold through the lens of this terrible episode, Lehman sheds light on the ethics of the dawning nation, and the way colonial America responded to betrayal and terror.

Clarence Saunders and the Founding of Piggly Wiggly

By : **Mike Freeman**

The grocery business began as a complicated service industry. Random pricing, inconsistent quantities and prescriptive salesmen made grocery shopping burdensome. It took one brash Memphian with uncommon vision and unbridled ambition to change everything. Clarence Saunders worked his way out of poverty and obscurity to found Piggly Wiggly in 1916. With an unprecedented approach, he virtually invented the concept of the modern self-service grocery store. Stores flourished, franchises spread and Saunders made millions. Yet just as the final bricks of Pink Palace--his garish marble mansion--were being laid, Saunders went bankrupt, and he was forced to sell Piggly Wiggly. A variety of new ventures helped Saunders out of bankruptcy, but he never duplicated his prior success. Memphis historian Mike Freeman tracks the remarkable life of this retail visionary.

The American Revolution for Kids-Volume 1

By : **Janet Hamilton**

8th grade students at Anthony Wayne Junior High in Whitehouse, Ohio wrote and illustrated Children’s books about the American Revolution. The stories in this volume were written by my first period students during the fall of 2015.

The Origin of the Nation: Declaration of Independence, Constitution, Bill of Rights and Other Amendments, Federalist Papers & Common Sense

By : **Thomas Paine, Alexander Hamilton, J**

“The Origin of the Nation” is an essential collection for all those who want to learn about the core of American democracy and its principles. This collection is comprised of the most important legal documents in early American history: United States Declaration of Independence, the Constitution, and the Bill of Rights. Beside these landmark documents, through the words of Federalist Papers and Common Sense you will understand how American identity was shaped, what were the

principles upon which the government of the United States was established.

Antioch

By : **Antioch Historical Society**

When the first settlers arrived here in 1850, they could never have guessed that their tiny settlement would one day be home to over 100,000 souls, scores of factories, and the gateway to the California Delta with some of the most productive agricultural lands in the world. In earlier days, the Sacramento and San Joaquin Rivers were the main routes into the state's interior, as the swampy delta land had yet to be tamed. Antioch and nearby Pittsburg served as major depots for supplies to the Sierra gold fields, stockpiling lumber, produce, hay, dry goods, medicine, and fuel from the Stewartville, Empire, and Judsonville coal mines. Named in 1851 after the biblical city in Syria, this town served for many years as the Bay Area's easternmost outpost and provided its inhabitants with a bounty both man-made and natural.

The 2016 presidential campaign of Donald Trump was formally launched on June 16, 2015, at Trump Tower in New York City. Trump was the Republican nominee for President of the United States in the 2016 election, having won the most state primaries, caucuses, and delegates at the 2016 Republican National Convention. He chose Mike Pence, the sitting Governor of Indiana, as his vice presidential running mate. On November 8, 2016, Trump and Pence were elected president and vice president of the United States. A campaign button for Abraham Lincoln, 1860. The reverse side of the button shows a portrait of his running mate Hannibal Hamlin. Part of the Politics series. 6.1 Types of elections. 6.2 Process of campaigning. 6.3 Political consultants. 6.4 Other issues and criticisms. 6.4.1 Cost of campaign advertising. 6.4.2 Independent expenditures. 6.5 Future developments. 7 Effects. 7.1 Presidential campaigns. 7.1.1 National conventions. 7.1.2 Presidential and vice-presidential debates. 7.1.3 Presidential primaries.
