The Sea Turtle Conservancy (STC), formerly known as Caribbean Conservation Corporation is an American not-for-profit 501(c)(3) membership organization based in Gainesville, Florida. STC was incorporated, based on an earlier informal organization known as The Brotherhood of the Green Turtle, in 1959 by Mr. Joshua B. Powers in response to renowned ecologist Dr. Archie Carr's award-winning book, *The Windward Road*, which first alerted the world to the plight of sea turtles. Dr. Carr served as Scientific Sea Turtle Natural History Written about 1991 and modified annually. Save to Library. Download. The SCISTP provides a robust model of how observational science and conservation can be transformed to maximize their impact in the public arena, especially in K-12 education, leading, we believe, to enhanced environmental stewardship and an enhanced appreciation for science. We intend to continue this project with shared operating support and exportation of our robust model to enhance science and science education around the world.
