by Scoones, Simon.

Title Climate change : our impact on the planet

Author Scoones, Simon.

ISBN 9780739831779

Personal Author Scoones, Simon.

Publication Information Austin : Raintree Steck-Vaughn Publishers, c2002.

Physical Description 64 p. : col. ill., col. maps ; 25 cm.

Series 21st century debates

Series Title 21st century debates

Abstract Looks at what scientists have discovered in the last fifty years and the different arguments about the future. Are changes in climate a result of human activities or are they the result of a natural long-term cycle? Should we be reducing the amount of gases we are putting into the atmosphere or will the earth adapt naturally to any changes in its climate?

Subject Term Climatic changes. Climatic changes -- Environmental aspects. Nature -- Effect of human beings on.

ISBN 9780836877533 9780836881530

Personal Author Dorion, Christiane.

Publication Information Pleasantville, NY : World Almanac Library, c2007.

Physical Description 48 p. : col. ill. ; 28 cm.

Series What if we do nothing?

Series Title What if we do nothing?

Contents Choking on garbage -- A chemical cocktail -- Living in a material world -- A different view of garbage -- War on garbage -- Time to change.

Abstract Shows how careless use of Earth's natural resources have created a world that is choking on its own garbage. Industrialization made it easy and cheap to produce products--and to throw them away. The book explains how we create so much garbage, good ways to recycle garbage and industrial wastes, and why producing no waste at all should be our goal.

Subject Term Refuse and refuse disposal. Pollution. Refuse and refuse disposal -- Environmental aspects

by Rammelsberg, Laura Schebler.

Title Environment & society

Author Rammelsberg, Laura Schebler.

ISBN 9781417105571

Publication Information Wynnewood, PA : Schlessinger Media, p2006.

Physical Description 1 videodisc (DVD) (23 min.) : sd., col. ; 4 3/4 in. + teacher's guide (5 p. ; 19 cm.)

Series Geography for students

Series Title Geography for students

General Note Includes discussion questions, activities and chapter select.

Abstract Students will explore how society uses the Earth's resources to meet our most basic needs for food, water, and shelter, and how those same resources influence how and where we live. The ultimate goal of a sustainable environment is to allow all of the inhabitants of Earth to live in equilibrium with the natural environment through such strategies as leaving a smaller human footprint on Earth and better balancing the current and future use of natural resources.

Reading Level For grades 5 to 9.

Subject Term Geography. Geography -- United States. Human geography. Physical geography. Environmental protection. Natural resources. Video recordings for the hearing impaired. DVDs for the hearing impaired. DVD.

Added Author Rammelsberg, Laura Schebler. Markus, Lorraine. Kerns, Scott. Richardson, Vanessa Alexandra.

Added Corporate Author Schlessinger Media.

[The uninhabitable earth : life after warming](#)

by Wallace-Wells, David, author.

Title The uninhabitable earth : life after warming

Author Wallace-Wells, David, author.

ISBN 9780525576709

Personal Author Wallace-Wells, David, author.

Edition First edition.

Physical Description 310 pages ; 25 cm

Contents I. Cascades -- II. Elements of chaos. Heat death ; Hunger ; Drowning ; Wildfire ; Disasters no longer natural ; Freshwater drain ; Dying oceans ; Unbreathable air ; Plagues of warming ; Economic collapse ; Climate conflict ; "Systems" -- III. The climate kaleidoscope. Storytelling ; Crisis capitalism ; The church of technology ; Politics of consumption ; History after progress ; Ethics at the end of the world -- IV. The anthropic principle.

Abstract "It is worse, much worse, than you think. If your anxiety about global warming is dominated by fears of sea-level rise, you are barely scratching the surface of what terrors are possible. In California, wildfires now rage year-round, destroying thousands of homes. Across the US, "500-year" storms pummel communities month after month, and floods displace tens of millions annually. This is only a preview of the changes to come. And they are coming fast. Without a revolution in how billions of humans conduct their lives, parts of the Earth could become close to uninhabitable, and other parts horrifically inhospitable, as soon as the end of this century. In his travelogue of our near future, David Wallace-Wells brings into stark relief the climate troubles that await -- food shortages, refugee emergencies, and other crises that will reshape the globe. But the world will be remade by warming in more profound ways as well, transforming our politics, our culture, our relationship to technology, and our sense of history. It will be all-encompassing, shaping and distorting nearly every aspect of human life as it is lived today. Like An Inconvenient Truth and Silent Spring before it, The Uninhabitable Earth is both a meditation on the devastation we have brought upon ourselves and an impassioned call to action. For just as the world was brought to the brink of catastrophe within the span of a lifetime, the responsibility to avoid it now belongs to a single generation"-- Provided by publisher.

Subject Term Nature -- Effect of human beings on. Global warming -- Social aspects. Climatic changes -- Social aspects. Global environmental change -- Social aspects. Environmental degradation -- Social aspects. Human ecology -- Forecasting.

"synopsis" may belong to another edition of this title. About the Author Starred Review. Grade 5 "This young readers' version of the recent documentary film's companion adult volume cuts the page count by about a third but preserves the original's cogent message and many of its striking visuals. After explaining that his interest in the environment predates even his mother's reading of Silent Spring aloud to him as a teenager, Gore proceeds to document steeply rising carbon dioxide levels in our atmosphere, and then to link that to accelerating changes in temperature and precipitation patterns worldwide.
