A. Book

1. B. Chapais and C. M. Berman. *KINSHIP AND BEHAVIOR IN PRIMATES*. Oxford University Press, New York, 520 pp., 2004.

B. Peer Reviewed Publications (full length journal articles and chapters)

2. C.M. Berman. The analysis of mother-infant interaction in groups: Possible influence of yearling siblings. In: *RECENT ADVANCES IN PRIMATOLOGY*, Vol. 1, Ed. by D.J. Chivers and J. Herbert, London: Academic press, pp. 111-113, 1978.

3. C.M. Berman. Mother-infant interaction among free-ranging rhesus monkeys: A comparison with captive pairs. *ANIMAL BEHAVIOUR* 28:860-873, 1980.

4. C.M. Berman. Early agonistic experience and peer rank acquisition among free-ranging infant rhesus monkeys. *INT. J. PRIMATOLOGY* 1:153-170, 1980.

5. C.M. Berman. Function of play: First steps toward an evolutionary explanation. *BEHAVIOURAL AND BRAIN SCIENCES*, 5:157-158, 1982.

6. C.M. Berman. The ontogeny of social relationships between infant monkeys and group companions: I. Social networks and differentiation. *ANIMAL BEHAVIOUR* 30:149-162, 1982.

7. C.M. Berman. The ontogeny of social relationships between infant monkeys and group companions: II. Differentiation and attractiveness. *ANIMAL BEHAVIOUR*, 30:163-170, 1982.

8. C.M. Berman. The social development of an orphaned rhesus infant on Cayo Santiago: Male care, foster mother-orphan interaction, and peer interaction. *AMER. J. PRIMATOLOGY* 3:131-141, 1982.

9. C.M. Berman. The effects of being orphaned. In: *PRIMATE SOCIAL RELATIONSHIPS--AN INTEGRATED APPROACH*. Ed. by R.A. Hinde, Blackwells Scientific Publications, Oxford, U.K., pp. 79-81, 1983.

10. C.M. Berman. The differentiation of relationships among rhesus infants. In: *PRIMATE SOCIAL RELATIONSHIPS; AN INTEGRATED APPROACH*, Ed by R.A. Hinde, Blackwells Scientific Publications, Oxford, U.K., pp. 89-93, 1983.

11. C.M. Berman. Matriline differences in infant development. In: *PRIMATE SOCIAL RELATIONSHIPS; AN INTEGRATED APPROACH*, Blackwells Scientific Publications, Oxford, U.K., pp. 132-134, 1983.

12. C.M. Berman. Early differences in relationships between infants and other group members based on mother's rank. In: *PRIMATE SOCIAL RELATIONSHIPS: AN INTEGRATED*

APPROACH, Ed. by R.A. Hinde, Blackwells Scientific Publications, Oxford, U.K., pp. 154-157, 1983.

13. C.M. Berman. The influence of close female relatives on peer-peer rank acquisition. In: PRIMATE SOCIAL RELATIONSHIPS: AN INTEGRATED APPROACH, Ed. by R.A. Hinde, Blackwells Scientific Publications, Oxford, U.K., pp. 157-160, 1983.

14. C.M. Berman. Variation in mother-infant relationships: Traditional and nontraditional factors: In: FEMALE PRIMATES: STUDIES BY WOMEN PRIMATOLOGISTS, Ed. by M. Small, Alan R. Liss, Inc., New York, pp. 17-36, 1984.

15. C.M. Berman. Maternal lineages as tools for understanding infant social development and social structure. In: CAYO SANTIAGO MACAQUES: BIOLOGY AND BEHAVIOR, Ed. by R. Rawlins and M.J. Kessler, SUNY Press, Albany, pp. 73-92, 1986.

16. C.M. Berman. Demography and mother-infant relationships: Implications for group structure. In: BEHAVIOR AND ECOLOGY OF FOOD-ENHANCED PRIMATE GROUPS, Ed. by J.E. Fa and C. Southwick, Alan R. Liss, Inc., New York, pp. 269-296, 1988.

17. C.M. Berman. Maternal condition and offspring sex ratio in a group of free-ranging rhesus monkeys: An eleven year study. AMERICAN NATURALIST, 131:307-328, 1988.

18. C.M. Berman and S. Schwartz. A non-intrusive method for determining relative body fat in free-ranging rhesus monkeys. AMER. J. PRIMATOLOGY, 14:53-64, 1988.

19. C. M. Berman. Trapping activities and mother-infant relationships: A cautionary tale. PUERTO RICAN HEALTH SCIENCES JOURNAL, 8 (1): 73-78, 1989.

20. C. M. Berman. Intergenerational transmission of maternal rejection rates among free-ranging rhesus monkeys on Cayo Santiago. ANIMAL BEHAVIOUR, 39:329-337, 1990.

21. C. M. Berman. Consistency in mother-infant interaction within families: An extension of the concept of maternal style. AMER. J. OF PRIMATOLOGY, 22:159-169, 1990.

22. R.L. Johnson, I. Malik and C.M. Berman. Age and dominance related variation in feeding time among free-ranging, female rhesus monkeys. INT. J. OF PRIMATOLOGY, 12:337-356, 1991.

23. I. Malik, R.L. Johnson and C. M. Berman. Control of postpartum mating behavior in free-ranging rhesus monkeys. AMER. J. OF PRIMATOLOGY, 26:89-95, 1992.

24. C.M. Berman. Immature siblings and mother-infant relationships among free-ranging rhesus on Cayo Santiago. ANIMAL BEHAVIOUR, 44: 247-258, 1992.

25. R.L. Johnson, C.M. Berman and I. Malik. An integrative model of the lactational and environmental control of mating in female rhesus monkeys. ANIMAL BEHAVIOUR, 46:63-78,

1993.

26. M.L. Laudenslager, K.L.R. Rasmussen, C.M. Berman, S.J. Suomi and Christy L. Broussard. Specific antibody levels in free-ranging rhesus monkeys: Relationships to plasma hormones, cardiac parameters and early behavior. *DEVELOPMENTAL PSYCHOBIOLOGY*, 26:407-420, 1993.

27. C.M. Berman, K.L.R. Rasmussen and S.J. Suomi. Reproductive consequences of rejecting and non-rejecting care patterns during estrus for free-ranging rhesus monkey mothers. *BEHAV. ECOL. SOCIOBIOL.*, 32: 391-399, 1993.

28. C.M. Berman, K.R. Rasmussen and S.J. Suomi. Responses of free-ranging rhesus monkey infants to a natural form of social separation: Parallels with mother-infant separation in captivity. *CHILD DEVELOPMENT*, 65: 1028-1041, 1994.

29. E. Kapsalis and C.M. Berman. Models of affiliative relationships among free-ranging rhesus monkeys (*Macaca mulatta*) I. Criteria for kinship. *BEHAVIOUR*, 133:1209-1234, 1996.

30. E. Kapsalis and C.M. Berman. Models of affiliative relationships among free-ranging rhesus monkeys (*Macaca mulatta*) II. Testing predictions for three hypothesized organising principles. *BEHAVIOUR*, 133:1235-1263, 1996.

31. C.M. Berman, K.L.R. Rasmussen and S.J. Suomi. Group size, maternal behavior and social networks: A natural experiment with free-ranging monkeys. *ANIMAL BEHAVIOUR*, 53:405-421, 1997.

But, what qualities make peer-reviewed journal superior to book chapters? I have been requested to write a book chapter and have a research manuscript that I thought of sending. I find it difficult in deciding whether to send it to a journal or to publish it as a book chapter. Your comments please . 7th Jul, 2017. Subir Bandyopadhyay. Botanical Survey of India. Journal papers are usually much better reviewed than book chapters provided the quality of the journal is good. 1 Recommendation. 7th Jul, 2017. Heba Y. Elbasiouny. Al-Azhar University. From the above responses, it is now clear that a research article should be publish preferable in a journal. What types of articles are good for book chapters? 7th Jul, 2017. Claude Pierre Massé. Recognition of reviewers: reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done. subject Imprint Information get_app Journal Flyer. Latest Articles. Building on the Elsevier OA price list, company balance sheet figures, and ScienceDirect data, tentative answers to three questions are outlined using a Monte Carlo approach to deal with the uncertainty inherent in the inputs. The first question refers to the level of APCs from the market perspective, under the hypothesis that all the articles published in Elsevier journals exploit the OA model so that the subscription to ScienceDirect becomes worthless. A Peer-reviewed Journal always have an editorial board of expertized and experienced Professors in the subjects, who can review and evaluate submitted articles before accepting them for publication. A journal is considered as a peer-reviewed journ... Be cautious and verify that the journal is not a predatory journal and it is associated with the reputed publisher. Once you identify the journal, draft the manuscript according to the journal guidelines and send it to them. The Journal will forward your article for peer review and contact you with the necessary changes and guide you accordingly. 68 views View 1 Upvoter. Related QuestionsMore Answers Below.
