Also devotes one chapter to the practical commercial world of

Fayol's theory has greatly contributed to the modern management practices. His principles apply in the managerial world. Managers are not born but can be made holds true as management theory is taught in various management institutions. The theories differ from each other on the following grounds: 1. Taylor is known as the father of scientific management while Fayol is known as the father of modern management. He introduced the Administrative Management Theory. 2. Taylor emphasised on increasing productivity at the workers' level while Fayol emphasised on managing the organisation as a whole.
