Jeff Bartels is a CAD manager, AutoCAD trainer, and college instructor. He's used AutoCAD since it's DOS days. As the CAD manager of a civil engineering firm in Illinois, Jeff is responsible for the production and oversight of large-scale subdivision plans and construction drawings, and the installation and configuration of AutoCAD. He conducts weekly training workshops to ensure his CAD staff is current with the latest software. Jeff is a faculty member at two different colleges, where he teaches advanced AutoCAD courses. We also have access to Drawing Utilities. This is where we would go to change drawing units, audit the drawing for errors, or purge unused content from a file. This book is organized to help you learn AutoLISP fundamentals and how to manage and implement custom AutoLISP programs. Additional resources and files containing the example code found throughout this book can be found on the companion web page, www.sybex.com/go/autocadcustomization. Other Information. This book assumes that you know the basics of your operating system—Windows or Mac OS X—and AutoCAD 2009 or later. When appropriate, I indicate when a feature does not apply to a specific operating system or release of AutoCAD. Since AutoCAD LT® doesn't support AutoLISP, none of the content in this book applies to that software package. Styles and Conventions of This Book.

The AutoCAD database book by Frederic H. Jones, 1988, Ventana Press edition, in English - 2nd ed. The AutoCAD database book. accessing and managing CAD drawing information. 2nd ed. by Frederic H. Jones. Published 1988 by Ventana Press in Chapel Hill, N.C. . Written in English. Subjects. AutoCAD, Protected DAISY, In library. There's no description for this book yet.
