Near-death experiences have gotten a lot of attention lately. The 2014 movie *Heaven Is for Real*, about a young boy who told his parents he had visited heaven while he was having emergency surgery, grossed a respectable \$91 million in the United States. To the skeptics, his story and the recent recanting of *The Boy Who Came Back From Heaven* are just further evidence that NDEs rank right up there with alien abductions, psychic powers, and poltergeists as fodder for charlatans looking to gull the ignorant and suggestible. An out-of-body experience is only one of the 16 possible elements of a near-death experience on the Greyson scale, and the proportion of experiencers who report having had one varies widely from one study to another.
