285 pages / 047114178X, 9780471141785 / Digital money: the new era of Internet commerce / 1996 / Daniel C. Lynch, Leslie Lundquist / Wiley, 1996 / Until now, commerce on the Internet has been shackled by the lack of secure transactions. This book offers an executive briefing on this vital topic. Exploring the technical underpinnings of what can and will be done on the Net, it explains the processes, issues and strategic considerations of a variety of approaches to secure transactions, including digital signatures. You'll learn about the pros and cons of each approach so you can decide which is best for your business. file download raro.pdf
