QuarkXPress is a desktop publishing software for creating and editing complex page layouts in a WYSIWYG (What You See Is What You Get) environment. It runs on macOS and Windows. It was first released by Quark, Inc. in 1987 and is still owned and published by them. The most recent version, QuarkXPress 2019 (internal version number 15.0), allows publishing in English ("International and U.S.") and 36 other languages, including Arabic, Chinese, Japanese, Portuguese, German, Korean, Russian, French, and Hence, the hardware for desktop publishing was launched by 1985, the same year Aldus launched PageMaker. It was the first desktop publishing software package and became an enormous success. High-end programs like Quark and InDesign are also notable in their ability to support add-in programs and features that allow advanced users to customize and automate their work flow. Low-end offerings include Microsoft Publisher, Corel Corporation's Print Office, and PressWriter from Broderbund Software, Inc. IMAGE EDITORS. Vector drawing programs are used to create original illustrations and designs. They deal with lines, shapes, and sometimes text as discrete drawing components.
