### Angus Foundation offers Angus art book

*Angus Art At The American Angus Association*, a book featuring the past 50 years of Angus artwork, was commissioned by the Association. It will be available beginning Nov. 20 at [www.angusonline.org/store](http://www.angusonline.org/store).

The book was written by Keith Evans, former director of communications and public relations for the Association. It features the work of renowned Angus artist Frank Champion Murphy, who has contributed more than 20 oil paintings and numerous drawings and sketches to the Association's Angus art collection.

The 70-page, four-color book documents the history of the Angus art collection and gives a complete biography of Murphy and his career with the American Angus Association. Much of Murphy's artwork has been used in advertising campaigns for the Angus breed throughout the years. Those campaigns are archived in the book as well.

The book is available for a \$20 donation, plus \$5 shipping and handling. Proceeds benefit the Angus Foundation, which supports youth, education and research.

### Murphy print

The Angus Foundation is currently merchandising 1,000 signed-and-numbered prints of an original oil painting by Murphy titled "In Apple Blossom Time" for a donation of \$100 per print, plus a \$10 shipping and handling fee. The print

measures 19 inches (in.) × 25 in. and is sold without a mat or frame. If you order online at [www.angusonline.org/store](http://www.angusonline.org/store), the lowest number print available at the time the order is placed will automatically be sent to the buyer. If you would like to request a specific number of the print, please place your order by calling (816) 383-5100.

### Angus history

*A Historic Angus Journey — The American Angus Association, 1883-2000*, is the first-ever published history of the American Angus Association. The book walks the reader through 117 years of Angus history leading up to the 21st century. It covers the boom years following World War I through the disastrous recession and depression years of the 1920s and 30s. It tells the story of how the Association was almost split apart in the efforts to end proxy voting and install a democratic form of government.

The book tells about the leaders whose efforts changed the Association throughout the years. Learn about the fight to control dwarfism in the 1950s and the programs that were developed to prevent a repeat of this genetic defect scare. Other highlights include the development of the performance records program and national sire evaluation, the rocky early years of Certified Angus Beef LLC (CAB) and its tremendous success, plus much more.

The book is available in a black leather-bound collector's edition for \$50 and a beige cloth-bound edition for \$25. An additional \$5 fee covers shipping and handling. Signed and numbered books are still available by contacting the Angus Foundation at (816) 383-5100.
