Surrealist founding father Andr  Breton claims that several members began to play an old game known as "Consequences" at a party. One person would write a word on the piece of paper, fold it back to show only the last word, and hand it to the next person to keep the story rolling. Considering that the participants of that game and later ones included figures such as Marcel Duchamp, Man Ray, Tristan Tzara, Paul Eluard, and Joan Mir , it's not surprising that the normal verbal twists and turns of the game took on a whole new level. It's in that room for interpretation that The Exquisite Book excels. If the goal of art is to challenge, this book is the fight for the championship title. The original Dadaists drenched their ideas in the still-fresh fad of Freudianism. A Book of Surrealist Game has been added to your Cart. Add to Cart. Buy Now.
