Pop music may include elements of rock, hip hop, reggae, dance, R&B, jazz, electronic, and sometimes folk music and various other styles. Irwin Stambler, who wrote "The Encyclopedia of Pop, Rock and Soul," one of the earliest sourcebooks on pop music, has died at 92. His son, Lyndon Stambler, said Thursday that he died Feb. 10 in Los Angeles. Stambler wrote dozens of books on many topics, from space missions to sports biographies. His musical interests prompted him to create encyclopedias on Broadway musicals, folk, country and Western music. The pop encyclopedia appeared in 1974. The book, which went through several revisions, chronicled the professional and personal lives of everyone from Chuck Berry to The Zombies.
