Academic English is often considered relatively formal complex English that conveys ideas in a precise and objective manner. If you read an article in an academic journal or listen to someone giving a presentation or a talk about an academic subject in an academic environment, Academic English is probably being used (English for university, 2016). Academic language (American English for Academic English) refers to the oral, written, auditory, and visual language proficiency required to learn effectively in universities and academic programs. i.e., it's the language used in lectures, seminars, books, and journals. It's the language that students are expected to learn and achieve fluency in (Education Glossary, 2017). Recent papers in Teaching of English Language and Literature. Papers. People.
