Globethics.net Education Ethics No. 1. Ethics in Higher Education as a Tool for Discovery 19. nothing or something? Does this something stand for a system that educates what is human in humankind, especially the young, leading to recognition of the needs of humanity through all ages by pointing to their source, origin and end? 5. What possibilities exist to strengthen classroom curricula of studies that enhance both character and learning? 6. Is it possible to combine distant-learning education with formation of character in the ongoing available platforms of distant education? Through education and experience, he is in an excellent position to understand the role of information, power, and ethics in decision-making processes. Although the case studies reflect experiences at senior colleges and universities, they or similar situations are likely to be encountered by trustees at community colleges. Certainly, the underlying principles raised in each of the cases are applicable regardless of institutional setting. For Holmes, ethical behavior is not an end in itself. The good economist that he is leads him to conclude that colleges and universities play a crucial role
