Mentoring the Next Generation of AACRAO Leaders: Taking Advantage of Routines, Exceptions, and Challenges for Developing Leadership Skills. By Cramer, Sharon K. Read preview. Academic journal article College and University. The thesis of this article is that mentoring is one of the unique opportunities that arise in the process of working on small or large "exceptional projects." Ideally, given the relative scarcity and high cost of formal mentoring programs - and the many opportunities for (and low cost of) informal ones - this article also may stimulate a commitment to informal mentoring relationships. Although not every supervisor can be an effective mentor (and not every supervisee can become a leader), this article may inspire you to think differently about yourself. Generation: How Successful Companies Develop the Next Generation (J-B. Esxfcr. Featured channels. A study of next-generation
leaders shows that managers have several concerns about the young people they employ. One of these concerns is that young people
aren't getting the coaching and mentoring they need to equip them to lead in complex environments. Many business owners don't have
a strategy for preparing these future leaders. Research shows that only one in eight companies have a written plan for leadership
continuity. Mentoring the Next Generation of AACRAO Leaders: Taking Advantage of Routines, Exceptions, and Challenges for

Often, the first form of mentorship that next-generation leaders experience is the most informal, but probably the most powerful: The dinner-table conversations of their parents that they hear and later take part in. With the objective of mentoring talent in adversity as a means to affect positive social change, Uli created the Maybach Foundation in 2006 and has since been inducted into the Council Of Mentors of the United Nations Global Youth Leadership Network in New York and has completed iconic global projects as varied as building in-country medical competency in East Africa to training.
