Paris in the Twentieth Century (French: Paris au XXe siècle) is a science fiction novel by Jules Verne. The book presents Paris in August 1960, 97 years in Verne's future, where society places value only on business and technology. Written in 1863 but first published 131 years later (1994), the novel follows a young man who struggles unsuccessfully to live in a technologically advanced, but culturally backwards world. Often referred to as Verne's "lost novel", the work paints a grim, dystopian view of African Americans grown cotton under a variety of contracts and institutional arrangements. Some were laborers hired for a short period for specific tasks. The ratio remained at this high level through the end of the twentieth century. 1965-1999: Civil Rights and New Challenges. In the 1960s, black workers again began to experience more rapid increases in relative pay levels (see Table 4). These years also marked a new era in government involvement in the labor market, particularly with regard to racial inequality and discrimination.
