BEYOND SPACESHIP EARTH " Environment Ethics and the Solar System, Edited by Eugene C. Hargrove, Sierra Club Books, 1986, ISBN 0-9626807-1-0, 353p, hardcover: \$14.95 It is now thirty years since the launching of Sputnik marked the dawn of the Space Age. In Beyond Spaceship Earth, Eugene C. Hargrove, the founder and editor of the journal Environmental Ethics, bring together the works of experts from government, the aerospace industry, and academia to inquire into the social, political, scientific and technological questions related to man's exploration of space. The contributors to this landmark study-including experts from NASA and NOAA (the National Oceanic and Atmospheric Administration), engineers, ecologists, philosophers, and medical and.
