Vicki Zeigler and Paul Gillette are the authors of *Practical Management of Pediatric Cardiac Arrhythmias*, published by Wiley. Table of contents. Foreword. Chapter 4. Immediate Arrhythmia Management. Barbara J. Knick, RN, CVT and J. Phillip Saul, MD. Chapter 5. Long-Term Antiarrhythmic Drug Therapy. "Much of the book could serve as a nursing care manual. The approach is succinct and practical, deemphasizing electrophysiology basic science. "This is a valuable, practical addition to a field of medicine which is sometimes obscure. The book is very useful for the practicing nurse or physician." --Doody's Review Service. "I applaud the authors for their well-demonstrated effort to remember that treating the whole person in pediatrics means treating the whole family. Clinical signs of hypocalcaemia are rare but may be evident. Insulin should be administered to maintain strict glucose control as this has been associated with reductions in morbidity and mortality in critical illness.³⁶ Hypocalcaemia and hypomagnesaemia should be identified and treated to avoid the development of cardiac arrhythmias. Antibiotics in AP. The use of antibiotics in non-infected pancreatitis is not currently recommended as there is no clear evidence of benefit. . A prospective audit against national standards of the presentation and management of acute pancreatitis in the South of England. *Gut* 2000;46:239-43.[doi:10.1136/gut.46.2.239](https://doi.org/10.1136/gut.46.2.239).
