In Excel, you can toggle or switch between full screen and normal screen. Full screen hides UI elements on the ribbon, whereas the normal screen restores it. Full screen view hides the Microsoft Office Fluent user interface Ribbon, the formula bar, and the status bar. To have access to the hidden elements again, you have to return to normal screen view. To switch to full screen view, on the View tab, in the Workbook Views group, click Full Screen. To return to normal screen view, right-click anywhere in the worksheet, and then click Close Full Screen. Keyboard shortcuts. If you are in Excel 2007 or 2010, press ESC. If you are in Excel 2013 or 2016, press CTRL+F1. Still can't see everything? Press ALT+SPACE and select Maximize. Excel Tutorial Topics: How to Insert an Image - How to Insert Shapes - Working with SmartArt - Changing the Background Color - Microsoft Excel 2010 Training. The option to insert images such as company logos, clipart and photos into a worksheet makes it possible to create visually appealing and professional looking workbooks. Applications for this could be, for example, a company invoice requiring a logo, price lists requiring product images or any worksheet that just needs a splash of color and design.
