(â€)The evolution of consciousness, embracing all of our selves â€“ these are the answers and love will naturally follow as we follow this process. The love that emerges with awareness is clear and requires no sacrifice of any part of ourselves. It is a love that incorporates heaven and earth, a love that incorporates all humanity. We are talking here about a redefining of spirituality and surrender. The new view of spirituality is no longer simply an experience of transpersonal energies and the surrender to God. It is as yet another level the surrender to the process of transformation. It is the Embracing Ourselves: The Voice Dialogue Manual by Hal Stone, Sidra Stone (1998) Paperback. 5.0 out of 5 stars 2. Paperback.Â Wanting to back up a workshop I'd done on Voice Dialogue, I bought this book and I'm so pleased I did. It's clear, concise and practical and filled in a lot of little details that either hadn't come up in the training or, if they had come up, I'd missed them. Voice Dialogue is a very powerful tool and I'd recommend this book to any therapist wanting to use the technique. Read more. 5 people found this helpful. Hal and Sidra Stone explain in simple terms how to transform the disowned and suppressed parts, which they call `sub personalities' into a balanced, flowing energy system known as consciousness using their own method called "Voice Dialog"(VD). They also explain how these suppressed parts express themselves through dreams and other means.
