Modern History of India. During the late 16th and the 17th Centuries, the European trading companies in India competed with each other ferociously. By the last quarter of the 18th Century the English had outdone all others and established themselves as the dominant power in India. The feeling of nationalism had started growing in the minds of Indians as early as the middle of the nineteenth century but it grew more with the formation of the Indian national Congress in 1885. Though the Congress started on a moderate platform but with the passage of time and apathetic attitude of the British government, the national movement began to shape well. Mahatma Gandhi. Mahatma Gandhi was born as Mohandas Karamchand Gandhi on 2nd October 1869.

India is more than snake charmers, though you may want to take in a performance during your visit. It is a country where temples glow gold in the sun, and where spectacular marble and sandstone palaces overlook lakes. Its ancient history has created many famous landmarks in India though there are plenty of beautiful natural landmarks too. Though predominantly Hindu, India welcomes people of all faiths to tour and worship in ancient temples. To many, it is an alien culture, but India is definitely a culture that's worth getting to know.

1. Amer Fort. Everything about Amer Fort is stunning, from landmarks in the history of education with respect to science (Indian context) - b.ed. Teaching notes. In the context of establishing modern science and technology as a live and vital force, the importance of science education cannot be forgotten. Indeed, science education plays a crucial and pivotal role in the fields of scientific research and technological innovations. Addressing the then National Institute of Sciences (now INSA), Nehru stated, "Who indeed can afford to ignore science today? At every turn, we have to seek its aid and the whole fabric of the world is of its making." Raman, one of India's most eminent scientists said, "There is only one solution for India's economic problems. This course covers the history of the Indian subcontinent from the advent of the Mughal Empire in 1526 until the present day. We proceed roughly chronologically and analyze some of the major political, social, religious, and cultural developments in early modern, colonial, and independent South Asia. Students will be exposed to primary sources, written by diverse people and translated from numerous languages, as well as the modern politics of history. Students will also learn about the practice of history more broadly, including how to read primary and secondary texts, how to weigh evidence, a
