International Fisher Relation: The Interest Rate and Expected Inflation Rate Differentials 42
Chapter 3 Foreign Exchange Determination and Forecasting 75

Learning Outcomes 75
International Monetary Arrangements 76
A Historical Perspective 76
The Empirical Evidence 83
Interest Rate Parity 83
International Fisher Relation 84
Purchasing Power Parity 85
Foreign Exchange Expectations 88
Practical Implications 90
Exchange Rate Forecasting 91
Is the Market Efficient and Rational? 92
The Econometric Approach 94
Technical Analysis 95
Central Bank Intervention 97
The Use and Performance of Forecasts 99
Summary 102
Problems 103
Bibliography 106

Chapter 3 Appendix: Statistical Supplements on Forecasting Asset Returns
Some Notations 109
Traditional Statistical Models with Constant Moments 110
Traditional Statistical Models with Time-Varying Moments 111
Nontraditional Models 113
Data Mining, Data Snooping and Model Mining 115
Chapter 6  Equity: Concepts and Techniques  203

Learning Outcomes  203
Approaching International Analysis  204
  The Information Problem  205
  A Vision of the World  206
Differences in National Accounting Standards  207
  Historical Setting  208
  International Harmonization of Accounting Practices  209
  Differences in Global Standards  212
  The Effects of Accounting Principles on Earnings and Stock Prices  215
Global Industry Analysis  217
  Country Analysis  217
  Industry Analysis: Return Expectation Elements  222
  Industry Analysis: Risk Elements  227
Equity Analysis  232
Global Risk Factors in Security Returns  242
  Risk-Factor Model: Industry and Country Factors  246
  Other Risk Factors: Styles  247
  Other Risk Factors: Macroeconomic  247
  Practical Use of Factor Models  249
Summary  251
Problems  252
Bibliography  257

Chapter 7  Global Bond Investing  256

Learning Outcomes  256
The Global Bond Market  260
  The Various Segments  260
  World Market Size  262
  Bond Indexes  263
  The International Bond Market  264
  Emerging Markets and Brady Bonds  269
Major Differences Among Bond Markets  271
  Types of Investments  271
  Quotations, Day Count, and Frequency of Coupons  272
  Legal and Fiscal Aspects  274
A Refresher on Bond Valuation  276
  Zero-Coupon Bonds  276
  Bond with Coupons  278
Contents

Duration and Interest Rate Sensitivity 280
Credit Spreads 282
Multicurrency Approach 284
    International Yield Curve Comparisons 284
    The Return and Risk on Foreign Bond Investments 287
    Currency-Hedging Strategies 288
    International Portfolio Strategies 289
Floating-Rate Notes and Structured Notes 293
    Floating-Rates Notes (FRNs) 294
    BuUFRNs 300
    Bear FRNs 302
    Dual-Currency Bonds 302
    Currency-Option Bonds 306
    Collateralized Debt Obligations (CDOs) 307
Summary 310 *
Problems 312
Bibliography 316

Chapter 8 Alternative Investments 317

Learning Outcomes 317
Investment Companies 319
    Valuing Investment Company Shares 320
    Fund Management Fees 320
    Investment Strategies 320
    Exchange Traded Funds 323
Real Estate 332
    Forms of Real Estate Investment 333
    Valuation Approaches 334
    Real Estate in a Portfolio Context 342
Private Equity 344
    Stages of Venture Capital Investing 346
    Investment Characteristics 347
    Types of Liquidation/Divestment 348
    Valuation and Performance Measurement 349
Hedge Funds and Absolute Return Strategies 351
    Definition of Hedge Funds 351
    Classification 354
    Funds of Funds 357
    Leverage and Unique Risks of Hedge Funds 359
    Hedge Funds Universe and Indexes 360
    The Case for Investing in Hedge Funds 363
Closely Held Companies and Inactively Traded Securities 366
    Legal Environment 366
    Valuation Alternatives 367
    Bases for Discounts/Premiums 367
Chapter 9  The Case for International Diversification  385

Learning Outcomes  385
The Traditional Case for International Diversification  588
  Risk Reduction through Attractive Correlations  388
  Portfolio Return Performance  398
  Currency Risk Not a Barrier to International Investment  406
The Case against International Diversification  407
  Increase in Correlations  407
  Past Performance Is a Good Indicator of Future Performance  411
  Barriers to International Investments  411
The Case for International Diversification Revisited  415
  Pitfalls in Estimating Correlation During Volatile Periods  415
  Expanded Investment Universe and Performance Opportunities  417
  Global Investing Rather Than International Diversification  418
The Case for Emerging Markets  421
  The Basic Case  421
  Volatility, Correlations, and Currency Risk  422
  Portfolio Return Performance  423
  Investability of Emerging Markets  424
  Segmentation versus Integration Issue  425
Summary  425
Problems  427
Bibliography  430

Chapter 10  Derivatives: Risk Management with Speculation, Hedging, and Risk Transfer  433

Learning Outcomes  433
Forward and Futures  434
Chapter 11 Currency Risk Management

Learning Outcomes 485

Hedging with Futures or Forward Currency Contracts 486

The Basic Approach: Hedging the Principal 487
Minimum-Variance Hedge Ratio 490
The Influence of the Basis 494
Implementing Hedging Strategies 496
Hedging Multiple Currencies 497

Insuring and Hedging with Options 499
Insuring with Options 499
Dynamic Hedging with Options 500
Implementation 504

Other Methods for Managing Currency Exposure 505

Strategic and Tactical Currency Management 509
Strategic Hedge Ratio 509
Currency Overlay 512
Currencies as an Asset Class 514

Summary 515
Problems 516
Bibliography 521

Chapter 12 Global Performance Evaluation

Learning Outcomes 523

The Basics 524
Principles and Objectives 524
Calculating a Rate of Return 527
Chapter 13  Structuring the Global Investment Process  581

Learning Outcomes  581
A Tour of the Global Investment Industry  582
  Investors  582
  Investment Managers  584
  Brokers  585
  Consultants and Advisers  585
  Custodians  587
Global Investment Philosophies  587
  The Passive Approach  587

  Long-Term Capital Market Expectations: Forward-Looking Returns  605
  Short-Term Capital Market Expectations  608
AIWMI is putting up the Global Investments Summit as an annual platform for bringing together experts and thought leaders to discuss unique perspectives and approaches to global investing. This Investment Summit will present leading edge investment research and will explore new global investment approaches, ideas and unique strategies that can benefit individual and institutional investors from India. Get access to the most updated information on the global investor markets. Global Investing. Investment Management. Overview. Our Investment Management Offerings. Automated Investing with Guidance. Schwab Intelligent Portfolios®. Global investments can provide exposure to an asset class that may move differently than U.S. holdings, potentially lowering the overall risk of a portfolio. See how U.S. and international stocks have performed over time. Click to enlarge. Global Investment Holdings became the leading independent brokerage and investment banking firm in Turkey soon after its establishment in 1990. The Company has played a vital role in the development of Turkish capital markets by paving the way for many of the country’s leading businesses to meet international businesses for the first time. The Company transformed into an investment portfolio company in late 2004 drawing on its appetite for growing investments and its extensive investment banking experience.
