See Customer Reviews. "Rogue Asteroids and Doomsday Comets - The Search for the Million Megaton Menace that Threatens Life on Earth" by Duncan Steel foreword by Arthur C Clarke published by John Wiley & Sons Inc, New York 1995. From the dust jacket: "Rogue Asteroids and Doomsday Comets is a compelling account of the threat posed to life on Earth from outer space, and of the scientists' response. Killer comets and asteroids populate the cosmos in greater numbers than we have ever imagined. But for the first time, humankind is in a position to prevent calamity. This book makes a compelling cas
