Diversity has increased in the United States over the last decade as minority population numbers have significantly outpaced growth in majority populations. From 2000 to 2010, the total population of the United States increased by 27.3 million persons. Hispanic Americans accounted for more than half of this increase, amounting to 43 percent growth.

Opportunity for Diversity: The purpose of this paper is two-fold. First, it informs and enlightens the rest of the commonwealth about policies, strategies, practices, trends, critical concerns and aspirations of Tanzania in relation to the conference theme. These changes have shaped the process of provision of education in Tanzania. The consequent landmarks have been instrumental in creating the current system of infrastructure and funding arrangements. The prevailing socio-economic conditions and the Tanzania Development Vision 2025 aspirations supported by the 1995 Education and Training Policy call for fundamental transformations and remedy of inherent deficiencies in the education delivery system. 2.
