Medicinal plants are renewable in nature unlike the synthetic drugs that are obtained from non-renewable sources of basic raw materials such as fossil sources and petrochemicals (Samanta et al., 2000). Sarsaparilla was a better alternative to mercury, the standard medical treatment for syphilis during that period. In clinical studies, sarsaparilla was observed to be effective in about 90% cases of acute syphilis and 50% chronic cases (Murray and Pizzorno, 1999). Since then, medicinal plants have been used for the treatment of STDs and AIDS without any scientific evidence in traditional
