War is the largest-scale military action and reaction that a state can use in order to force its intentions unilaterally on an opponent, and history is often abused by victorious sides. The Soviet-German War 1941 - 1945. By Professor Richard Overy Last updated 2011-02-17. The enormous scale of this particularly ferocious war is hard to comprehend. The roots of the war lie in the appointment of Adolf Hitler as German chancellor in 1933. The Red Army had sufficient reserves to stop the German army from completing the rout in December 1941, but the following summer German offensives launched far to the south of Moscow, to seize the rich oilfields of the Caucasus and to cut the Volga shipping route, created further chaos. Hitler hoped that German forces would capture the oil and sweep on through the Middle East to meet up with Axis forces in Egypt. The Battle of Kursk in July 1943 was one of the greatest set-piece battles in military history.
