Facilitation Resources

Volume 2.
Contracting and Handling Logistics
Introduction to Facilitation Resources

During the 1990s there has been a renewed interest in citizen involvement in community decisions. While many issues are still decided by powerful and financially strong networks, the ability of the average citizen to collect relevant information, address issues with intelligence, and initiate public meetings has made the public influence greater.

Those who work with organizations have learned the need for effective facilitation skills. In the Foreword to Facilitator’s Guide to Participatory Decision Making by Sam Kaner, Michael Doyle presents two important lessons learned. “Lesson one: if people don’t participate in and ‘own’ the solution to the problems or agree to the decision, implementation will be half-hearted at best, probably misunderstood, and, more likely than not, fail. The second lesson is that the key differentiating factor in the success of an organization is not just the products and services, not just its technology or market share, but the organization’s ability to elicit, harness, and focus the vast intellectual capital and goodwill in their members, employees, and stakeholders. When these get energized and focused, the organization becomes a powerful force for positive change in today’s business and societal environments.”

Facilitation Resources, available as a set of eight volumes, is an effort to enhance volunteers’ group facilitation techniques. The participants will be able to use the skills in facilitating nonprofit groups and organizations through important discussions vital to the organization and to the community.

Limited Permission to Photocopy Worksheets

Facilitation Resources is designed for personal use and as curriculum for educational sessions. We encourage you to make copies of the worksheets in this guide for yourself and for use by those involved in educational processes. Additional copies of Facilitation Resources can be ordered by calling (800) 876-8636 or by completing the enclosed order form.

Limited Photocopy Permission List

Copyright permission has been granted by the Regents of the University of Minnesota to photocopy only the following pages for your personal or educational use.

About the Authors and Additional Contributors

The authors of this guide have over 115 combined years of facilitator experience. The members have tested and refined many exercises and resources while facilitating and training a wide range of community groups, organizations, and companies. They recognize that in this work called facilitation, one never quits learning.

Marian Anderson
Marian has served as Extension Educator in Rice County since 1989. Previous to that, she was Extension Educator in Big Stone County from 1968 to 1989. She earned a B.S. degree from Iowa State University and a Master of Education from the University of Minnesota in Home Economics Education. Marian specializes in Leadership/Citizenship Education, is a member of the Minnesota Association of Extension Educators, Minnesota Association of Extension Family and Consumer Science, Minnesota Facilitators Network, and many community organizations and networks. She is a contributor to Kiwanis and the Rice Unit of the American Cancer Society.

Sharon Roe Anderson
Sharon is the Director of International Exchange Programs and Associate Director of the Reflective Leadership Center at the Humphrey Institute of the University of Minnesota. The Center’s approach to understanding and enhancing leadership development has drawn international attention and recognition. Sharon has taught and consulted extensively with organizations and communities on “collective leadership,” doing together what is not possible as individuals. She has developed leadership centers as well as programs for people at all levels in the educational, political, community, and business arenas. A recipient of many honors and awards, Sharon specializes in a pragmatic approach and is sought out as a strategist and coach in issues of leadership, shared power, proactive change, informed decision making, and excellence in organizations.

Mary Laeger-Hagemeister
Mary has been Extension Educator in Steele County since September of 1997. Her primary responsibilities are youth development and leadership/citizenship issues. Previously, Mary was an extension educator for Penn State University in the Harrisburg area for nine years. Mary holds a Bachelor of Arts in Home Economics from Concordia College, Moorhead, MN, and a Master of Education in Individual and Family Development from Penn State. She is an active member in the Minnesota Association of Extension 4-H Agents, and the Minnesota Extension Association of Family and Consumer Sciences, and is a Certified Family Life Educator through the National Association on Family Relations.

Donna Rae Scheffert
Donna Rae has been a faculty member at the University of Minnesota Extension Service since 1987 specializing in ethics and public leadership, community and organizational issues, and international study exchanges. She is currently studying for a Ph.D. in adult development and education and holds a Master’s degree in continuing studies with an emphasis in leadership development. Donna Rae has published several articles in professional journals.
2. Contracting and Handling Logistics

Roger Steinberg
Roger is an assistant professor and rural community development specialist with the University of Minnesota Extension Service, working out of the University Center, Rochester. He also holds an adjunct appointment of the faculty of the Hubert Humphrey Institute of Public Affairs at the University. His work involves educational seminars, workshops, and conferences, bringing University faculty and students out from campus to work on community issues, and assisting communities, groups, and organizations with strategic planning, goal setting, and leadership development. This work is done through local Extension offices. Roger grew up in South Dakota and Northwestern Iowa and is a graduate of South Dakota State University.

2. Contracting and Handling Logistics

Overview: Agreeing to Facilitate and Handling Logistics

Contracting: Agreeing to Facilitate
The questions in this section are designed to help the facilitator in several ways. They put some “structure” to initial discussions and to the decision on whether or not to accept the facilitation. They are also a guide to working with the group or organization. The word contracting as used here is not meant to suggest a rigid or formal agreement, but rather a planning process.

Included are questions for the facilitator to use with representatives of the group/organization in meeting(s). There is also a worksheet on logistics and arrangements to be used as the next follow-up step. Also included are some questions relating to ethics. These are designed to serve as the facilitator’s personal checklist, to help decide whether or not to take on the project. In addition, they should help the facilitator spot any “red flags” during the planning process. You will find more on ethical decision making and use of power in Volume 7: Diversity, Power, and Ethics.

The evaluation and activity report pieces in Volume 8 should be thought of as part of the contracting process. They can also be helpful because in this work we call facilitation one never quits learning.

In Volume 8 you will find case studies. We recommend you review them as practice in contracting. They vary in complexity and difficulty. They can also be used as a format to create examples specific to your own situations.

Handling the Logistics
Good facilitators know that the success of a meeting begins with good planning before the group gathers. The contracting will help to clarify roles and expectations. However, additional planning is needed to set out the agenda, communicate with participants, make room arrangements, and gather supplies and equipment. Time spent in preparation will increase the chances of a successful meeting.

Pre-meeting work may include collecting data, laying out the agenda, determining the group process to follow, and possibly having a couple of alternatives in case flexibility is required.

Know the room. This may mean going to look at the space ahead of time, or at least, arriving very early so you can make sure the seating arrangement is appropriate for the room, the size of the group, and the work that is to be accomplished. There are many different room arrangements; select the one that will create an atmosphere of openness and encourage group involvement.

Develop a checklist to review the needed equipment for the meeting. Resources may include name tags, flipcharts, AV equipment, markers and tape, table tents, etc. Have extra supplies on hand.
Tools
Four tools are included to make handling the logistics of group meetings easier:

- Advance Planning for Inclusive Facilitation—Use this checklist to ensure that participants in sessions feel welcome and included. Logistical considerations include interaction with the group requesting facilitation, resource assessment, participant support, site accessibility/safety, etc.

- Meeting Organizer—Keep this worksheet master on file to organize important information for each facilitation opportunity.

- Equipment and Material Checklist—Keep this worksheet master on file to attach to the meeting organizer to plan for supplies needed.

- Room Arrangement—Use these principles of room arrangement to guide your decision on how to set up your meeting room.
2. Contracting and Handling Logistics

Contracting: Diagnosing the Situation

Contracting is “an agreement that reflects clear expectations about how the facilitator and group will work together” (Roger Schwarz, The Skilled Facilitator). Schwarz emphasizes, “Ineffective contracting almost invariably results in problems later in the facilitation process.”

He gives three reasons for contracting:

- To ensure that both the facilitator and group understand and are committed to the conditions that would govern their working relationships.
- To create an early opportunity for each to observe how the other works.
- To build trust and a solid psychological foundation between the facilitator and the group.

The worksheet on page 2.10 suggests questions to help you diagnose the situation and decide whether to accept or decline a facilitation opportunity.

Contracting: Ethical and Process Questions

It is the responsibility of the facilitator to see whether the group that is requesting a facilitator meets the ethical and process standards of quality facilitation. If it doesn’t, decline the facilitation opportunity. Sam Kaner in his Facilitator’s Guide to Participatory Decision Making lists four functions of a facilitator:

- **Encourage and ensure full participation**
- **Promote mutual understanding**
- **Foster inclusive solutions**
- **Teach new thinking skills**

The worksheet on page 2.11 suggests questions to help you consider ethical and process questions and decide whether to accept or decline a facilitation opportunity.
2. Contracting and Handling Logistics

Some Initial Questions—Diagnosing the Situation During Contracting

1. Why is your group/organization looking at this issue now?

2. What kinds of changes are you looking for? What do you personally hope will happen?

3. Who are the people that will be involved?

4. What other types of communications or processes do you usually use?

5. What are the climate and culture (mission, vision, and goals) of this group/organization?

6. What experience has this group/organization had in working with other facilitators or consultants?

7. Have you tried other approaches to address this issue?

8. How will you make changes that the participants decide on during this process?

9. What types of report or summaries are you planning to share with participants and others affected by the outcomes?
2. Contracting and Handling Logistics

Some Initial Questions—Ethical and Process Considerations in Contracting

1. In your judgment, is there value for everyone involved in committing the needed time and effort?

2. Are the organizers open to all possible outcomes, or is this a “done deal”?

3. Will all of those impacted by decisions be represented at the table?

4. Will the power structure allow for open and honest dialogue?

5. Will we be able to deal with the real issues versus “symptoms”? Are there any hidden agendas?

6. Is the outcome(s), as you see it now, doable in the time the group/organization is willing to commit to the process?

7. Will participants have the background knowledge and resources they need to make decisions?

8. Will outcomes/results be shared with everyone impacted or affected?
2. Contracting and Handling Logistics

Responsibilities
A. Contacting participants?

B. Facility/room arrangements?

C. Recording discussion, summarizing, and follow-up with participants?

D. Media involvement (if relevant)?

E. Anticipated expenses?

F. Others?
Advance Planning for Inclusive Facilitation

**Interaction with Requesting Group**
- What is the best way of interaction: Do you approach an elder first?
- Do you begin with personal contact (via phone or in person), or do you begin with printed communication?

**Resources**
- Have you allocated/considered budget line items for the resources it might take to accommodate various participant needs?
- Is an interpreter(s) needed? Is there money to pay for them?
- Have you allowed for the additional time it might take to interact using multiple methods of communication?

**Participants**
- Do you know what organizations or agencies your participants are connected with and what services are located locally?
- Do you investigate the communication needs/modes (hearing impairments, reading levels) of your potential participants?
- How are participants being invited? Are invitations being mailed out? Do you check for “reader friendliness”? Do you call, or conduct home visits if they do not have a phone? Have you or could you talk with “representatives” from your target populations to seek out preferred ways for recruitment?
- Have you made transportation arrangements? Childcare arrangements?

**Site**
- Is the place accessible? Have you done a walk-through or verified the degree of accessibility (e.g., complicated entry)? Are rooms and restrooms wheelchair accessible and identified with tactile symbols? Are there accessible restrooms on the same floor as the meeting room?
- Are telephones equipped with Text Telephones (TT) for people who are deaf or have speech difficulties? If not, are there electrical outlets near public phones for individuals to plug in their own TT?
- Is there an area for guide dog relief?
- Is there enough space in the room for people who use wheelchairs?
- Is there an available route for public transportation to the meeting?
- Is there accessible parking?
- Does the meeting facility have alarm systems that alert both visually and audibly?
- Does the site make special accommodations for dietary needs?
- Do you attempt to use resources (hotels, conference centers, etc.) that demonstrate culturally competent practices (e.g., employing people with disabilities, ethnic differences)?
2. Contracting and Handling Logistics

Room Setup
Do you have:
__ Assistive listening devices?
__ Program materials in alternative formats (Braille, large print, computer disk, audiocassette)?
__ Reader and/or notetaker? Ample lighting on speaker’s face? Preferential seating?
__ Interpreters (spoken, sign)?
__ Accessible electrical outlets for audiotape or computer? Captioned films or videos?

Planning for Delivery
__ How can you deliver activities to accommodate the heterogeneity of your participants?
__ Are there pictorial materials and audio presentations to complement printed materials? Does the printed material need to be in Braille or multiple languages? Interpreters needed?

Are you, as facilitator, prepared to:
__ Describe visual aids, including text on boards, flipcharts, overheads, or slides? Speak clearly and face the audience as much as possible?
__ Provide alternative formats for printed handouts?

2. Contracting and Handling Logistics

Room Arrangement

There are four principles that guide room arrangements:

1. **All participants and the facilitator should be able to see and hear each other.**

2. **The seating arrangement should enable members to focus on the flipchart (or other writing device) and the person or persons who will manage the group’s process.**

   Focusing the participants’ attention on the flipchart helps people stay on task. Focusing participants’ attention on the person managing the group process makes it easier for that person to work. Facilitators usually sit in a location that physically distinguishes them from group members. Except for the facilitator and chair, participants should NOT be assigned specific seats.

3. **Seating arrangements should distinguish participants from nonparticipants.**

   Groups often ask nonmembers to attend to provide information or just to observe. Seating the nongroup members apart from group members enables members to focus on one another without “psychological interruptions” from nongroup members. It also makes it easier for the facilitator to attend to group members without being distracted.

4. **Seating arrangements should be spacious enough to meet the needs of the group, but no larger.**

   Facilitation involves bringing people together to work. Seating arrangements that leave empty spaces between participants create unnecessary psychological distance for members. Empty spaces also make it more difficult for a facilitator to see at a glance whether everyone is present.

**Seating arrangements for different sizes of groups:**

Finding More Resources

The educational and corporate community has dozens of marvelous resources available for the motivated facilitator wishing to find more resources. Also, the practical wisdom of gifted community facilitators should be tapped. This guidebook has drawn upon several excellent resources and those are listed in the following reference list.

In the search for more resources consider human resources, written resources, technology-enhanced resources, organizational resources, and other resources. Identify excellent facilitators and interview them. Practical wisdom is often not written but accessible through stories. Utilize libraries to search for materials. Search for organizations that support facilitator growth and learning, like the National Facilitators Network (has state-based groups, too). Contact your local Cooperative Extension Service for information and coaching.

Consider searching for resources under the general heading of facilitation as well as under each of the sub-topics important to facilitation (conflict, decision-making processes, etc.). Remember that the context in which facilitation is done is important—in board rooms, in community meeting rooms, in group retreat settings, etc. Evaluate the resource to see if it is more appropriate in one context than another.

Best wishes finding more resources to build upon your skills, understanding, and expertise as a facilitator.
