London operated more as a transit point in an international fashion system, exporting primary or unfinished products like wool and metal and importing luxuries such as fur and embroideries. But in a national context, the city began to exert a formidable political and cultural pressure over the rest of the country as parliament, law courts, and the crown established permanent bases there. This process drew the rich and influential into London and helped to ensure that fashionable trends originated in its streets, markets, and great houses.Â The London Fashion Book.
