The laws of Gaia are binding because they convey truths about global flourishing. BOOK REVIEW: Gaia and God: An Ecofeminist Theology of Earth Healing. By Rosemary Radford Ruether, HarperCollins, 310 pp., \$22.00. The field of ecological ethics is fast becoming a morass of positions among which only specialists distinguish: creation spirituality, deep ecofeminism and the animal rights movement. Despite her commitment to "earth healing" (a healed relationship between men and women, between classes, between nations and between humans and the earth) and her suggestions of means to that end, the most important word of the title and the project at the front of Ruether's mind is theology. Book Review. Ruether, Rosemary Radford. Gaia and God: An Ecofeminist Theology of Earth Healing. New York, HarperCollins Publishers, 1992. This book, Gaia and God, brings a new way of thinking and reflecting towards the earth to which we are intimately and inextricably connected to in living and in consuming from it. Ruether offers us her feminist view and her evaluation toward the heritage of Western Christian culture and of the American World, and takes us from creation story to destruction reality and from domination to the possibility of a healing quest. Are Gaia, the living and sacred earth, and God, the monotheistic deity of the biblical traditions, on speaking terms with each other? Ecology and feminism, brought together in the unified perspective of ecofeminism, provide the critical perspective from which I seek to evaluate the heritage of Western Christian culture. The goal of this quest is earth healing, a healed relationship between men and women, between classes and nations, and between humans and the earth." Here are some representative quotations from the book: "The classical Christian understanding of sin is a heritage

New York, HarperCollins Publishers, 1992. This book, *Gaia and God*, brings a new way of thinking and reflecting towards the earth to which we are intimately and inextricably connected to in living and in consuming from it. Ruether offers us her feminist view and her evaluation toward the heritage of Western Christian culture and of the American World, and takes us from creation story to destruction reality and from domination to the possibility of a healing quest. This healing quest for the earth is rooted in deep Sifts through the legacy of Christian and Western cultural heritage to criticize beliefs and stories that have negatively influenced our relationships with each other and with the earth and to illuminate those that may lead to future models for earth-healing.
