I found this book to be very thought-provoking. I find myself thinking about my relationship with my horse in a completely different light. Could it be my inner fears (of falling off, getting hurt again) are mirrored in her flighty nature? Perhaps by facing my own shadow self, my dark horse, that it will help our relationship? Mr. Irwin, through his prose, seems to think so. I recommend this book for anyone seriously pursuing a relationship with their horse. Horses can teach us about trust and love and be part of a therapeutic healing process for troubled humans. The authors, both practicing psychotherapists, use horses in their treatment program with mentally disturbed patients, who often bond with their equine companions even when they are unable to relate to other people. The McCormicks explain how horses, quick to sense pretense, force people to rely on their instincts and to be honest with themselves. But riding is only a part of the authors' treatment program.
