explanation and power the control of human behavior

Introduction to Human Behavior. Academic and commercial researchers alike are aiming towards a deeper understanding of how humans act, make decisions, plan, and memorize. Advances in wearable sensor technology along with procedures for multi-modal data acquisition and analysis have lately been enabling researchers all across the globe to tap into previously unknown secrets of the human brain and mind.Â In both operant and classical conditioning behavior is controlled by environmental stimuli â€” however, they differ in nature. In operant conditioning, behavior is controlled by stimuli which are present when a behavior is rewarded or punished. Operant conditioning was coined by B.F. Skinner.
